

The Chilton

2,587 Sq. Ft. | 4 Bedrooms | 2.5 Baths | 3 Car Garage

Custom-Designed
For Your Family

WELCOME TO THE CHILTON MODEL.

The Chilton is filled with design trends that are here to stay! Directly ahead of the foyer is the heart of this home: a great room with 13' beamed ceilings, wood plank fireplace, and an abundance of natural light.

The Chilton kitchen has a large center island workstation and hidden "messy kitchen" pantry design. The Chilton also showcases an optional screen porch, a popular feature we can add to almost any home we build!

The primary suite, located on the main level, is private from all other bedrooms. It has its own en-suite, featuring an oversized tile shower, dual vanity, and the 10' ceilings in the walk-in closet let you be creative with your organization.

One of our favorite rooms in the Chilton is the laundry/mud room. This area is staged to show you how we've made a

simple design change that will make the neighbor dog howl with envy. A custom home built for your furry companion, along with their very own full view door so that they can check out what's going on outside.

Venture upstairs and you'll find three bedrooms, which share a bathroom off the loft. Open the small door and toss your laundry down the chute!
